PREFACE

Alberta Income Statistics, 1982, presents historical income statistics for the years 1972-1982 based on a sample of all Individual Income Tax returns collected by Revenue Canada, Taxation.

The income statistics are tabulated from Revenue Canada Taxation's Locality Code Statistics File. This file has been created by assigning each tax return to a locality through the mailing address on the taxfiler's return. The income statistics are based on the taxfiler's address at the time of filing.

More specifically, this report provides information on the number of taxfilers, as well as the total and average income for both taxable and all returns at the provincial and sub-provincial levels. Data for sub-provincial areas (localities) are organized according to the following geographic hierarchy: census subdivisions (usually municipalities, such as counties, municipal districts, cities, towns and villages) aggregate to census divisions which in turn aggregate to the province.

It should be noted that changes in the tax legislation can make it difficult to compare figures from one year to the next. For example, 1972 represents a complete break in the series due to some rather global tax changes. Furthermore, in order to prevent the possibility of associating small figures with an identifiable individual, data for less populous municipalities have been suppressed to meet the confidentiality requirements of Revenue Canada, Taxation.

Should you have any questions with respect to this report, or require additional information, please contact Data Dissemination, Alberta Bureau of Statistics, (403) 427-3058.

GLOSSARY

NUMBER OF FILERS - includes all those who have filed T1 Special and/or T1 General Individual Income Tax Returns for the Calendar or taxation year; are classified geographically by filer's mailing address at time of filing.

TAXABLE RETURN - an income tax return upon which a tax of one dollar ($1.00) or more is assessed.

TOTAL INCOME - expressed in current dollars and is the sum total of the following components:

(a) Employment Income

- wages and salaries; taxable allowances and director's fees
- gross compensation from employment
- other employment earnings (i.e., adult training allowances; net research grants; tips and gratuities)

(Note: allowable employment expenses have not been deducted from employment income).

(b) Pension Income

- Old Age Security pension
- Canada or Quebec Pension Plan benefits
- Other pensions or superannuation

(c) Self-employment Income

- net business income
- net professional income
- net commission income
- net farming and fishing income

(d) Income From Other Sources

- taxable family allowance benefits
- unemployment insurance benefits
- taxable amounts of dividends
- bond interest
- bank interest
- mortgage interest
- income from trusts
- annuity income
- other Canadian investment income
- net rental income
- net taxable capital gains

(e) Miscellaneous Income

- alimony or separation allowances
- scholarships, fellowships, bursaries and prizes for achievement
- income from guaranteed annual wage plans
- taxable portion of payments from income maintenance plans

The following do not have to be reported as income:

- Workers' Compensation payments
- Veteran's Allowances
- Social Assistance
- Guaranteed Income Supplement
- Spouse's Allowance
- Welfare payments
- Mother's Allowance
- Lottery Winnings

AVERAGE INCOME - is equal to TOTAL INCOME divided by NO. OF FILERS

$$\text{i.e.,} \quad \frac{\text{TOTAL INCOME}}{\text{NO. OF FILERS}} = \text{AVERAGE INCOME}$$
